Il faudrait vérifier si ces class qui ont changés dans la css n'ont pas été impacté dans le html

<u>Léa Delannay</u> @ILDE5180 · <u>1 day ago</u>

En effet ces classes ont impacté le HTML. Je fais la modification. Par contre, quand je lance mon ng serve, je n'ai pas accès à la page conseils-personnalisés, alors que j'y avais accès hier. Ça me reboute sur la page /indisponible. Une idée d'ou ça

peut venir?
